LinkedIn: chinmayee-b-l-2160b2366 — GitHub: chinmayeebl2007

Professional Summary

Artificial Intelligence and Data Science student with strong foundations in Java, Data Structures, SQL, and software development. Passionate about building AI-powered applications and solving real-world challenges through scalable and data-driven solutions.

Technical Skills

Languages: Java, C, JavaScript, TypeScript

Web Technologies: HTML, CSS, React, JSX, TSX

Databases: SQL, MongoDB

AI Technologies: Gemini API, Retrieval-Augmented Generation (RAG), Prompt Engineering

Tools: Git, GitHub, VS Code

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS

Relevant Coursework: Database Management Systems, SQL, Data Structures and Algorithms, Software Engineering

Soft Skills: Team Collaboration, Communication, Analytical Thinking, Time Management, Adaptability

Projects

AI Document Analysis & Retrieval System

- Developed an AI-powered document intelligence platform using TSX for PDF, DOCX, and text document analysis.
- Implemented Retrieval-Augmented Generation (RAG), semantic retrieval, and contextual question-answering.
- Built diagnostic reasoning and response visualization features for explainable AI-generated outputs.

Meeting Risk Intelligence Platform

- Developed a web-based platform for meeting management, risk assessment, and task tracking.
- Built analytics dashboards to visualize risk metrics, task assignments, and meeting performance.
- Implemented centralized workflows for risk monitoring, reporting, and action-item management.

JobBridge – AI-Powered Resume Analyzer and Job Matcher

- Developed an AI-powered platform integrating Gemini API for resume analysis and intelligent job matching.
- Implemented skill extraction, resume parsing, and skill-gap analysis using LLM-based processing.
- Built personalized job recommendation features and an interactive dashboard displaying match scores.

Lost and Found Portal

- Developed a full-stack portal using JSX and MongoDB for reporting and tracking lost items.
- Implemented search functionality, item management, and responsive user interfaces.

Education

M. S. Ramaiah Institute of Technology, Bangalore

B.E. in Artificial Intelligence and Data Science

2024 – 2028

CGPA: 9.50

National Composite PU College, Hospet

Science (PCMB)

2022 – 2024

97.16%

St. Joseph English High School, Hospet

SSLC

2021 – 2022

99.05%

Certifications

- Data Structures and Algorithms – NPTEL
- Microsoft Learn Certification – Develop AI Solutions in Azure (Apr 2026)

Hackathons & Participation

- Participated in the PRISM Hackathon, collaborating on innovative problem-solving and software development challenges.
- Participated in the Google × M S Ramaiah Institute of Technology × DeepStation AI Hackathon, developing AI-driven solutions in a competitive environment.
